

August 16, 2021

Dear Valued Customers,

Thank you for your continued partnership over the last 18 months. There have been more industry shifting events than one can count during this time.

As a company we are taking all the precautions necessary to safely deliver our product to you. The recent rise in reported Covid-19 cases have been a sharp reminder of the environment where extra caution in the workplace is demanded.

The pressure on our businesses continues with the announced force majeure for feedstocks still in place and the announcement of additional surcharges for feedstocks. Transportation over the ground and by sea continue to rise.

Rising costs of transportation, surcharges on feedstocks, and continued inflation of all commodities necessary for doing business requires us to announce a \$0.10/lb increase for all polymeric films, effective shipments on or after September 1, 2021.

We certainly hope that some of these pressures will ease over time and we all can operate in a more normalized environment. We will continue to use best practices and optimization to service your business.

Thank you for your continued business and partnership.

Sincerely,

Manav Singh
Vice President – Sales & Marketing
