

July 22, 2024

Valued Customers,

Our industry continues to absorb rising costs in raw materials, manpower, transportation and other overheads like all manufacturing sectors. The inflationary environment demands that we behave prudently and fair-minded to all stakeholders. Domestic and global demand are piggy-backing each other to push lead times further.

As a leading domestic and global producer of polyester films with backward integrated resin manufacturing, we will continue to offer a secure supply chain for BOPET films. However, a sustainable margin is needed in order to provide these high-quality products and services seamlessly.

For these reasons Polyplex USA announces a price increase for all 'Sarafil' polyester film grades by \$0.16/lb for shipments on or after August 5, 2024. The price change will affect orders placed prior with delivery date on or after August 5th as well as orders in consignment or similar types of programs where the inventory has not been invoiced.

Your account manager will be in touch with you to discuss any questions you may have.

Thank you for your business and we look forward to our continued partnership.

Sincerely,

A handwritten signature in blue ink that reads "Manav Singh". The signature is written in a cursive style and is underlined.
